Background and Methodology

Background and Methodology

Background

The Louisville Bar Association (LBA) contracted the services of Wilkerson & Associates to assist in its annual review of the performance of sitting judges. The LBA sent evaluations to all Kentucky Bar Association members with contact addresses in Jefferson County to rate the performance of various judges with whom they have had experience over the past two years. Jefferson Family Court and Jefferson District Court judges were included in the evaluation for 2005.

Methodology

Letters and postcards were sent to an estimated 3,800 members in September 2005, informing them of the annual Judicial Evaluation. Members who were qualified to participate in the review were asked to fill out the postcard request and return it to Wilkerson & Associates no later than October 26, 2005. A total of 694 postcard requests were received by the postmark date. Survey packets and return envelopes were mailed to the 694 respondents during the first week of November 2005. Reminder postcards were sent approximately two weeks later. Respondents were asked to return the completed evaluation forms to Wilkerson & Associates postmarked no later than November 30, 2005. A total of 367 completed survey forms were returned by the postmark date.

Questionnaire

The survey instrument included a series of 19 attributes that were used to evaluate the performance of each judge. Respondents were asked to indicate the extent to which they agreed or disagreed with each statement used to describe a particular judge using a four-point rating scale of strongly disagree, disagree, agree and strongly agree. Respondents were also given an option to write in any advice they would give to a particular judge to improve his/her performance. These comments were provided only to the applicable judge under separate cover as confidential feedback for his or her personal review. General comments on how to improve the evaluation process or the court system were submitted to the LBA under separate cover.

Respondents were instructed to rate only those judges with whom they have had substantial professional contact within the past two years.

Response Rate

Because of the size of the litigation bar and the nature of such practice, only a limited number of attorneys have had significant experience with a particular judge in a specific court. Consequently, from the original 3,800 attorneys who received notice of the evaluation, just a fraction could reasonably be expected to respond to the survey questions. Of those attorneys who were qualified and agreed to respond to the evaluation, many may have significant experience in only one of the courts evaluated or with a limited number of the judges listed. Still, the number of lawyers responding is more than adequate to result in a statistically valid evaluation of the judiciary.
